4 stroke engines at: 115dB/A (+2dB/A before the race; + 3 dB/A after the race)

Test procedure: 2 metre max method

A further review of sound levels will be made at the end of the 2022 season.

Machines will be selected at random for sound testing when presented at Preliminary Technical Control

Sound Control after a race – Any rider whose machine is above the limit documented above – whether it be one of the riders chosen at random or any other rider whose motorcycle is controlled/verified – may be penalised by having a 5 place penalty added to his riding time in the race in question. Riders may be chosen by the use of ride by sound tests or at random by the Clerk of the Course.

Should a machine become excessively noisy during a practice or racing session in the opinion of the Clerk of the Course, a board displaying “Noise” together with the offender’s number shall be shown to the rider in question at an appropriate place on the circuit. Once passing the board the rider has two laps in which to enter the work area and effect repairs. i.e. the rider may only pass the board on two occasions. If the rider fails to enter the work area during that time they will be shown the Black Flag and disqualified from the race in question. Under these circumstances no Sound Test shall be undertaken.

In either instance, if there are not enough laps left in the session or race for the above scenario to take place, the rider will still be shown the board whereby he is advised to affect a repair. However, if he fails to do this, the machine will automatically be sound tested at the end of the session or race.

Any rider refusing to have an engine measured or failing the test will result in the loss of all British Championship points.

All registered British Championship riders should own their own transponder for which it is their responsibility to ensure that it is fully charged and fitted securely. See manufacturer’s instructions for charging Transponders.

The timekeepers can issue a transponder to riders who do not have a transponder at the event for a hire fee of £20.00, fitting brackets will cost £5. The rider will be required to leave a deposit of £20 which will be returned when the transponder is handed back on the day of the event.

The timekeepers will invoice riders who lose a hired transponder the replacement cost and anyone not returning the transponder at the end of the meeting will lose their £20 deposit.

The organisers and timekeepers will take no responsibility for the results of riders who fail to fit a transponder or charged transponder to their machine.

Once a rider has taken his place at the start gate he cannot change it.

A rider is deemed to be under starters orders when the first rider is called to the start line. If a rider cannot start his motorcycle after coming under starters orders and the gate being loaded, he may lose his choice of position on the start, but he may start the race from the Waiting Zone once the gate has dropped.

Any rider who fails to be ready to start or who causes a start to be unnecessarily delayed in the opinion of the starter or the Clerk of the Course may be disqualified from that race.

The starter will hold up a green flag from which moment the riders are under his control until all riders are on the start line. When all the riders are on the start line the starter's assistant will hold up a 15 second board for 15 seconds. 3.9 STOPPING A RACE

The Clerk of the Course has the right, for safety reasons or other cases of force majeure, to stop a race prematurely or to cancel a part or the whole of a meeting.

The Clerk of the Course may exclude one or more riders, deemed to be at fault for the race being stopped, from taking part in the restart.

If a British Championship race is stopped before 10 minutes has elapsed there will be a complete restart. This will be deemed a new race.

Riders will return to the waiting zone to await an official announcement. Restarts will take place as soon as possible.

In the event of a complete re-start reserve riders may take part in the restart if one or more of the original starters are unable to take part or are disqualified by the Clerk of the Course. Riders who missed the waiting zone for the original start are permitted to participate in the re-start. All reserve riders for the original start are reserves for the re-start.

If a reserve rider competed in the first start he will not automatically be included in the restart.

If a race has to be stopped after the leader has completed half of the race time, (not including any extra laps), it will be considered to have finished.

The order of classification shall be based upon the order of last crossing the finish line prior to the showing of the red flag, and only competitors who have completed 50% of the number of laps (rounded down) completed by the race leader will be classified.

If a race has to be stopped after the leader has taken the chequered flag they will be classified as having finished the race.
